## Literacy

Key Text: Fletcher and the spring time blossoms - Julia Rawlinson
The way back home - Oliver Jeffers
Writing
To sustain cohesion in 3 or more sentences when using 'and' as a conjunction. To include a question within a narrative and ensure all sentences are demarcated accurately.
To include an exclamation within a narrative
Word Reading / Comprehension

$$
\begin{aligned}
& \text { We will continue to work on retrieval, deduction and inference over } \\
& \text { a } 2 \text { week cycle during shared reading. }
\end{aligned}
$$

## Phonics

Children will follow the Read, Write Inc scheme for reading
They will focus on reading Set 3sounds and applying these to mullisyllabic words.
They will blend sounds to read real and alien words speedily.

Geography - Local study of our school
We will be developing an understanding of where we live using maps.
We will be looking at aerial maps and birds eye view maps to find/describe
our position and location
We will be learning about our local environment in Towcester.
Geographical skills and fieldwork
We will be creating our own maps from birds eye view.
We will learn to name, represent and read a key for natural and manmade features.
We will be using a compass to find North and how this can help us to find our location.

DT Food: Preparing vegetables and fruit.
We will be learning to use safe culting techniques.
We will be designing our own salads and fruit salads.

## PSHE - Celebrating differences

We will be learning abouk respecting similarities and differences. We will also explore anti-bullying and being unique

Computing - Purple Mash
Unit 1.4 - Lego Builders -

1) The importance of following instructions.
2) Following and creating simple instructions.
3) Considering the order of instructions.

Unit 1.5 - Maze explorers

1) Creating and debugging a set of instructions
2) Changing and extending longer algorithms

Maths:
After reviewing counting in $2^{\prime} s, 5$ 's and $10^{\prime}$ s we will begin to multiply
by creating and adding equal groups.
Once secure on making equal groups to multiply we will explore
division by making arrays. We will be using real life objects to explore
sharing equally and counting how many are in each group.
Fractions - this term we will be learning to find half, quarters and
the whole of a shape and quantity.
Geometry - this term we will be learning to describe the position of
shapes. We will also be looking at describing and naming how shapes
turn.

## Year I <br> Local Study - Flowers and plants 2023

the early signs of summer.
We will be looking in our local environment to name and identify common flowers and plants.
We will understand that there are some wild and some garden flowers/plants.
We will be drawing and labelling the different parts of plants. We will do this with different flowers/plants to identify the common features/differences.
We will be exploring the differences between trees, plants and flowers.

RE - 1.8 Who am I? What does it mean to belong?
This summer term will be our seond term on this Big Question
To know that Christians believe Jesus brings good news for all people For Christians, This good news includes everyone being loved by God. To know that Christians believe Jesus is a friend to the poor and friendless.
To understand that Christians believe Jesus teachings and parables make people think hard about how to live
We will compare Christianity to Judaism and explore the symbols and actions that show some people belong to different religions.

P.E

Invasion
We will be working on developing an understanding of attacking and defending. We will explore playing
both even and uneven sided games. Children will work in pairs and groups - learning to show respect and kindeness towards their teammates and opppnents.
Net and Wall
We will continue to develop throwing, catching and racket skills. We will play against an opponent and be encouraged to demonstrate sportsmanship and respect towards others

[^0]:    Science - Biology - Plants and flowers - Seasonal changes
    We will be looking at the difference in the season between Spring and
